“A GOOD PRODUCT, A FAIR PRICE”

Awards

The recompense for the effort to achieve excellence in quality.

It was because we have worked, since 1973, always in search of the highest standards of quality for our products, that A. J. Rorato won its recognition, the trust of its customers and, consequently, several awards attributed to the sector, such as:

- Paraná Ambiental Award;
- Quality of Work Sesi Award;
- Anamaco Award;
- Best Product of the Year by Revenda Magazine.
- Trophy Ruy Ohtake Award.

They are the symbols of our dedication to what is most important to us: the satisfaction of our customers.

Structure

Currently, A. J. Rorato has a modern industrial park, where more than 1,000 employees operate state-of-the-art equipment and use the best people management practices and manufacturing excellence. We are nationally recognized not only for the quality of our products and excellent pricing policy, but also for our socioenvironmental responsibility, through care for nature and various social actions.

Reutilização de Resíduos

Os resíduos sólidos de madeira e derivados são processados e transformados em tubetes de madeira, que são utilizados para queima em caldeira, evitando assim o corte de novas árvores.

The cabinet box is in the “sandwich” style, with a structure made with wood from our own reforestation treated in high-temperature drying kilns.

In the manufacturing process of synthetic marble sinks and Laundry Utility Sinks, the products that fail the quality control are sent for processing. After being treated, this material returns to the manufacturing process of sinks. This process does not represent raw materials savings, but great benefits to the environment.
